Did you know that the air ducts in your home are hiding dust, debris and harmful particles such as mold, pet dander and allergens? Through everyday living, a 6 room home can create up to 40 lbs of dust a year. The benefits of cleaning your ducts annually can lower in home allergy triggers and improve the air quality for those with respiratory illnesses, especially small children and the elderly. Dust in your ducts can cause your system to work harder creating higher energy bills and shortening the life of your system. To schedule a FREE estimate please feel free to contact us. 910-455-7315 or CASP_4@HOTMAIL.COM Clean Air Specialist
